

ImerCoat Gloss 80

ImerCoat Gloss 80 is an ultra high fineness engineered mineral with excellent whiteness. It is designed to deliver excellent opacity & 20% TiO₂ reduction and to enhance gloss, semi gloss finish in decorative & industrial paints. ImerCoat Gloss80 is easy to disperse in water based and solvent based paints, coatings, rubber and inks.

PROPERTIES	UNIT OF MEASURE	TYPICAL VALUES
Whiteness	(Aimil)	92
Bulk Density, Loose	(gms/liter)	260
Bulk Density, Tapped	(gms/liter)	410
Screen Residue(#500mesh)	%	0.3Max
pH	Digital units	6.0±1.5
Oil Absorption, Rub Out	gm/100gm	40±10
%Moisture	(%max)	2Max
d50 microns	(Sedigraph)	0.4
Below 2 microns	(Sedigraph)	98
