PE-40

(Non-ionic polyethylene emulsion for body built up)

Description:

PE-40 is a non-ionic polyethylene emulsion used as softener to give body building properties to the fabrics.

Properties:

Appearance	:	Pale yellow to pale brown clear to translucent viscous liquid
Composition	:	Based on non-ionic polyethylene emulsion
Ionic nature	:	Non-ionic
pH (2% in distilled water)	:	9.0 ± 1.0
Miscibility in water	:	Miscible

Product Life and Storage:

This product may be stored up to six months in a sealed container. Containers should be stored in a cool, dry area. Extended storage at elevated temperatures or exposure to direct heat or sunlight could reduce product life. Keep containers sealed when not in use.

Packing:

50 & 200 kg HMHDPE containers.

Disclaimers clause: "All recommendations for the use of our products, whether given by us in writing, orally or to be implied from the results of tests carried out by us are based on the current state of our knowledge. Notwithstanding any such recommendation, buyer or user shall remain responsible for satisfying himself that the products as supplied by us are suitable for his intended process or purpose. Since we cannot control the application, use of processing of the products, we cannot accept responsibility thereof. Buyer has to ensure that the use of the products will not infringe any third party's intellectual property rights. We warrant that our products are free from defects in accordance with, and subjects to our general conditions of sale and supply."
